## Student Transfers

The Student Transfers Report shows the number of students who chose to attend a school other than the school that serves their residence, including students who are not residents of the City and County of Denver. The report identifies the non-Residents of the City and County of Denver who chose to attend a Denver Public School (DPS) and Denver residents who chose to attend a school other than their residence school. Students transfer under a variety of programs, including magnets (e.g. ELL, IB ), Choice, and Charter.

Table 1 is a summary of the number of transfers by program.

Tables 2 thru 5 summarize transfers for each school. The area membership column shows the number of students who reside in the neighborhood the respective school serves. The October 1 Membership column shows the number of students enrolled in the respective school on October 1. A "transfer out" is a student who transfers from the school that serves their residence to attend another DPS school. A "transfer in" is a student who transfers to a DPS school that is not the school that serves their residence.

Table 6 gives the count of students attending a school other than the school serving their residence address by program and school of attendance.

Table 7 gives the count of students transferring out of the school that serves their residence address by program and residence school.

The Non-Resident tables 8 thru 12 show the number of students at each school who are not residents of the City and County of Denver based on their residence address. These students chose to attend DPS instead of a school that serves the city and county they reside in.
